## Latest News on The Rise

The past year and a half has seen quite a shift in real estate activity for the Okanagan's residential market. Not only are less people investing in vacation homes, which directly affects resort communities, but today's economy demands huge price reductions.

The Rise had to follow suit, and it fit. Nearing the end of our 'Believe it!' campaign, which offers a **30% reduction** on all remaining inventory, we are left with only 8 lakeview lots and 1 lakeview home. For pricing

and information, please call our sales team at 250-542-5111 or 866-400-8488.

By now you have all probably seen or heard the news about a new owner at the Rise. Well it's true, our 735-acre resort has an accepted offer to purchase which is expected to complete later this year. The winery and vineyard are not part of the sale.

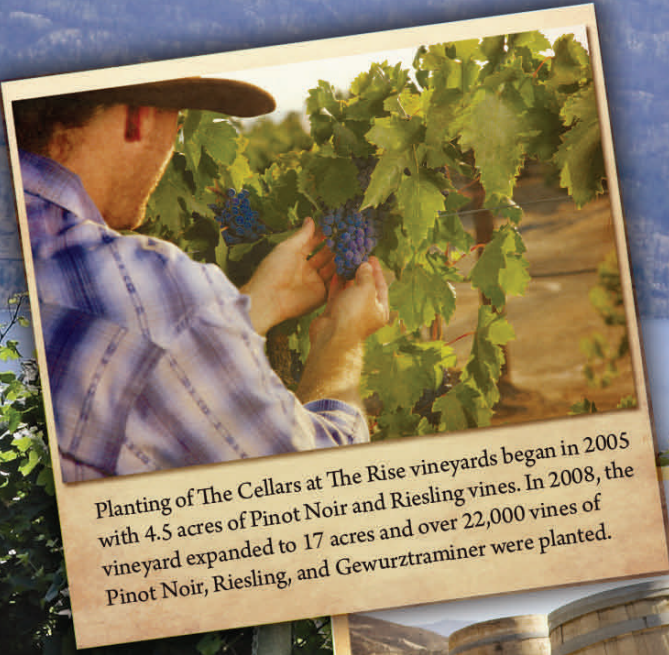

Although plans for the winery have been put on hold and a tasting facility isn't in place just yet, we do have a limited selection (3 of which have VQA Designation) of wine available for purchase. Call 250-549-4481 or email [info@therise.ca](mailto:info@therise.ca) to ask how you can place an order.

We'd like to congratulate the winners of The Golf Club at The Rise's second annual Club championship. The Founder's Cup flight winner Shane Bowring retained his Men's Low Gross title and Pat Carter took her first title for the women's. On the net side of the draw Bob Newman won the men's division, and Norma Duncan won the women's.

It's not quite time to reflect on your golf performance this season. Get out and enjoy the last few weeks of play by taking advantage of The Rise's Fall Appreciation Rate ~ 18 holes for \$59, power cart included.

*The Golf Club at The Rise is scheduled to close Tuesday, October 12th.*

Thank you for a great year!

Planting of The Cellars at The Rise vineyards began in 2005 with 4.5 acres of Pinot Noir and Riesling vines. In 2008, the vineyard expanded to 17 acres and over 22,000 vines of Pinot Noir, Riesling, and Gewurztraminer were planted.

While the winery is currently on hold, design plans include a visitor facility, dining and tasting rooms.

The area's micro-climate and ideal soils provide superb conditions for the vineyards, which sit on the sunny south facing slopes almost 400 meters (1,300 feet) above the north arm of Okanagan Lake.

The art of wine is, in some ways, an expression of the development of community. The land is carefully cultivated, the harvest brought forth, and, over time, maturity brings richness and enjoyment to all who live here.
